

## Applications for Greenpop Zambia Festival of Action are open

*Take me to Zambia!* Greenpop, an award-winning social enterprise working in Southern Africa, has opened applications for their 6th annual Zambia Festival of Action from 25 June - 16 July 2017. The Zambia Festival of Action is an environmental action summit that brings people together from around the world to actively engage with sustainability and have fun while doing it.

Misha Teasdale, Greenpop's Tree-E-O, invites active citizens of all ages to join Greenpop for a week (or two or three) of environmental learning, cultural adventure and fun. "This festival offers a great chance to roll up your sleeves, challenge your mind with the latest green ideas, get elbow deep in Zambia's red soil planting trees with participants from around the world and local community members from Zambia. Enjoy music jams by the campfire and watch movies under the stars. Join us for this world-changing experience and make lifelong friends!"

### **The Zambia Festival of Action**

The 2017 Zambia Festival of Action is a three week festival where participants plant trees, grow food forests, build using eco-methods, set up recycling systems, brighten up schools with eco murals, attend sustainability workshops, celebrate with live music and more. It's an adventure for active citizens who want to change their world.

Inspired individuals can apply to join for one, two or three weeks from 25 June - 16 July 2017. Weeks 1 and 2 are specifically for high school students. In week 3 Greenpop welcomes participants of all ages and backgrounds who want to get active for the environment and have fun at the same time.

### **Trees for Fees**

Greenpop also provides a fun alternative way for people to 'pay' for their placement: Trees for Fees, a fundraising initiative whereby attendees get their friends and family to sponsor funds for trees in exchange for their programme fees at the Zambia Festival of Action. Get more information [Trees for Fees](#).

### **Who is Greenpop?**

**Greenpop**

**JOIN THE TREEEVOLUTION**

Greenpop is an award winning social enterprise on a mission to (re)connect people with the planet. They plant trees through urban greening and reforestation projects, spread environmental education, and activate people through green workshops and events.

Greenpop was founded in 2010 and has since planted over 70 000 indigenous and fruit trees at schools and other urban sites, community farms as well as forests across South Africa, Zambia and Tanzania. More than the number of trees, Greenpop is inspired by the thousands of hands that have helped to plant the trees and the further thousands that have joined Greenpop's eco-education programmes and made a commitment to be custodians of our beautiful planet.
