What is the Reforest Fest?

Each year, Greenpop hosts the Reforest Fest over two weekends:

The first is the **Family Weekend (March 10-12)**, created for parents and children to connect in nature while planting trees, enjoy great family entertainment and participate in activities for all ages. Unplug for some quality family time in the great outdoors and learn lessons about the planet that will last a lifetime.

The second is the **Friends Weekend (March 17-19)**, ideal for people who would like to get their hands dirty and make positive impact for the environment. As well as planting thousands of trees, fest goers will enjoy eco-talks, yoga, live music and much more. The Friends Weekend activities and talks are more tailored to adults, but all ages are welcome at both festival weekends!

Both Reforest Fest weekends are held in the beautiful Platbos Forest Reserve, 2.5 hours drive away from Cape Town in the Overberg region.

Who is Greenpop?

Greenpop is a social enterprise on a mission to (re)connect people with the planet. They plant trees through urban greening and reforestation projects, spread environmental education, and activate people through green workshops and events.

Greenpop was founded in 2010 and has since planted over 70 000 indigenous and fruit trees at schools and other urban sites, community farms as well as forests across South Africa, Zambia and Tanzania. More than the number of trees, Greenpop is inspired by the thousands of hands that have helped to plant the trees and the further thousands that have joined Greenpop's eco-education programmes and made a commitment to be custodians of our beautiful planet.
